

Fast, easy gloss measurement.

- Auto power off
- One button measurement operation
- 60 degree measuring angle for flexibility
- Easily readable LCD
- Robust construction for commercial use
- Compact size

High specification and quick and easy to use...

The GM1 Gloss Meter optically measures surface gloss on a variety of surfaces, including automotive paint. The meter follows international standard ISO2813 for gloss measurement of paint films. Its 60 degree measuring angle means it is suitable for measuring the widest levels of reflectivity, providing flexibility and broad range of use.

The gloss meter is high spec and quick and easy to use - simply hold the meter against the surface to be measured and press the yellow button and the gloss level is immediately displayed on the LCD screen. The meter can be calibrated with the included calibration piece.

The meter is suitable for a variety of end uses in a range of settings, including the following: fabricators, engineering companies, aerospace and shipbuilding companies, auto dealers, bodyshops, powder coaters, painters, coating inspectors, car detailers, used car buyers, any other situations where accurate measurement of surface gloss and reflectivity is required.

The GM1 is supplied factory calibrated with all required accessories:

Hard-shell carrying/storage case, calibration piece, lens cleaning cloth, user guide and batteries.

Large LCD display
for clear, error
free readings

Easy to use
2 buttons control
all functions
making it simple
and quick to use

Contoured fingerrips
to aid handling
and placement stability

Compact and light weight
assisting handling and
carriage.

Only requires 2x AAA batteries

60° measuring angle enables
measurement on a broad range of surface
gloss levels, providing flexibility in
range of applications.

Range:	0-200GU
Resolution:	+/-0.4GU/30min
Accuracy:	+/-1.2GU
Projecting angle:	60 degrees
Dimensions:	114 x 70 x 38 mm
Weight:	285g (excluding batteries)
Standards:	CE approved

Examples of types of surfaces that can be measured:

Paint	Marble
Powder Coat	Granite
Fire resistant paint	Pottery
Rubber	Wood
Plastic	Printing ink
Enamel	Metals
Vinyl	Non-metals
